## Here and There

Editorial By ALEX. H. WASHBURN

HERE is a new and striking approach to the problem of the dole. The Mississippi House of Representatives approved \$3 to 40 an appropriation of \$650,000 for continuation of the dole—but provided that the names of all persons who received aid should be published in their home-town newspaper.

### Job Program Lags; Relief Extension to First of Year

Deadline of November 1st Declared Impossible at Washington

### AWAIT PRESIDENT

Roosevelt Himself Must Determine Relief Course to Be Pursued in 1936

WASHINGTON (AP)—Two grave relief problems—a work drive lagging badly and next year's policy toward the needy—await President Roosevelt's return to the White House.

Most pressing is care of the jobless during the nearly cold months. Mr. Roosevelt once set November 1 for ending the dole and transferring 2,500,000 employables to pay rolls. But with less than two weeks remaining, the "transition" is 2,189,267 jobs short.

Some officials forecast Sunday that a renewed drive to put the work relief program over, this time by December 1, would start when the president reaches the capital Thursday. This would mean continuation of direct relief probably to the first of 1936.

**Reduced Deficit Forecast**  
Paralleling cut in relief expenditures is the task of framing a new program for submission to congress in January. Then the budget must contain figures on what shall come after the \$4,880,000,000 work program. Mr. Roosevelt has forecast smaller emergency expenditures and a reduced deficit. Shaping 1937 relief plans to meet these requirements is understood to have been a chief topic of discussion on the vacation circuit between the president, Harry L. Hopkins and Secretary Ickes.

Officials here said they expected little change in the relief picture during the coming year—except that about 4,000,000 "unemployables" hereafter must look to states, communities and the social security program, instead of to the federal government for direct relief.

About half the nation's unemployed they estimated, are not on relief and are not included in the present program. They expect that increased private employment probably would go first to those not on relief.

**Peak Relief Laid in Prospect**  
With winter expected to see the relief chart start climbing again, a peak load estimated by some at 15,000,000 persons appeared in prospect.

Direct relief by the first of the year will have cost the federal government more than \$3,000,000,000. This was in addition to \$3,700,000,000 of public works outlay, \$500,000,000 for the Civil Works Administration and other recovery expenditures.

Partly because of delays in starting this year's work program, about \$1,300,000,000 of the \$4,880,000,000 appropriation is counted on to provide support for the 3,500,000 and their families and leave \$900,000,000 in the treasury at the close of the financial year next June 30.

Some tentative plans for next year have called for supplementing the \$900,000,000 with perhaps another \$2,000,000,000 to finance relief up to June 30, 1937.

## 3 Million More Is Given Arkansas on Highway Work

New WPA Allotment Released for Roads, Grade-Crossing Elimination

### ADDITIONAL GRANT

Nearly 89 Millions to 37 States for Relief of Physically Handicapped

WASHINGTON (AP)—A presidential allotment of \$11,512,897 of work relief funds for highway and grade-crossing elimination construction work in six states was announced Monday by the Works Progress Administration (WPA).

Arkansas received a highway allotment of \$2,922,200. Simultaneously Audrey Williams' acting relief and Works Progress Administrator, allotted \$38,875,000 to 37 states to continue the rehabilitation of physically handicapped persons now receiving vocational training.

The grants included: Arkansas \$1,050.

## H. W. Hall's Auto Is Burned Sunday

Family Narrowly Escapes Injury—Alton CCC Recruits Come to Aid

Mr. and Mrs. H. W. Hall and their small son escaped injury late Sunday afternoon when their car struck loose gravel, plunged into an eight-foot ditch six miles south of Hope and caught fire.

Occupants of the car escaped through windows and were not injured. Several Alton CCC recruits rushed to the scene, aided Mr. and Mrs. Hall and extinguished the blaze.

The Hall family were en route home from Hope. They were within 300 yards of their home and were rounding a slight curve when the driver lost control as the car struck loose gravel. Flames badly damaged the front of the car.

## British Assailed by Lloyd George

War-Time Premier Declares Delay in Enforcing Sanctions Is Fatal

LONDON, Eng.—(AP)—David Lloyd George, war-time prime minister, Sunday charged that the British government could have halted an Italo-Ethiopian war last March had it taken a lead for sanctions when Ethiopia appealed to the League of Nations.

The former British leader, in an attack on the British government during a pre-election address, also assailed Italy, and termed Mussolini "the god of war in the world, breathing fire, slaughter and defiance."

Britain said Lloyd George, let Mussolini get his army into Eritrea before acting. "Economic sanctions if applied in time are effective," he said, "but if applied too late are worse than useless. They are a sham and mockery. It is a sorry and miserable tale, a tale of weakness, hesitation, indecision, delay, procrastination and of acting months too late."

The cabinet's reported plan to propose a "defence loan" to the nation also drew fire from Lloyd George. "Our own government," he said, "cannot find more than \$2,000,000 (about \$10,000,000) for the distressed areas of Great Britain, but now we are confronted with an invitation to the people of this country to declare they are going to spend \$200,000,000 on machinery for human slaughter."

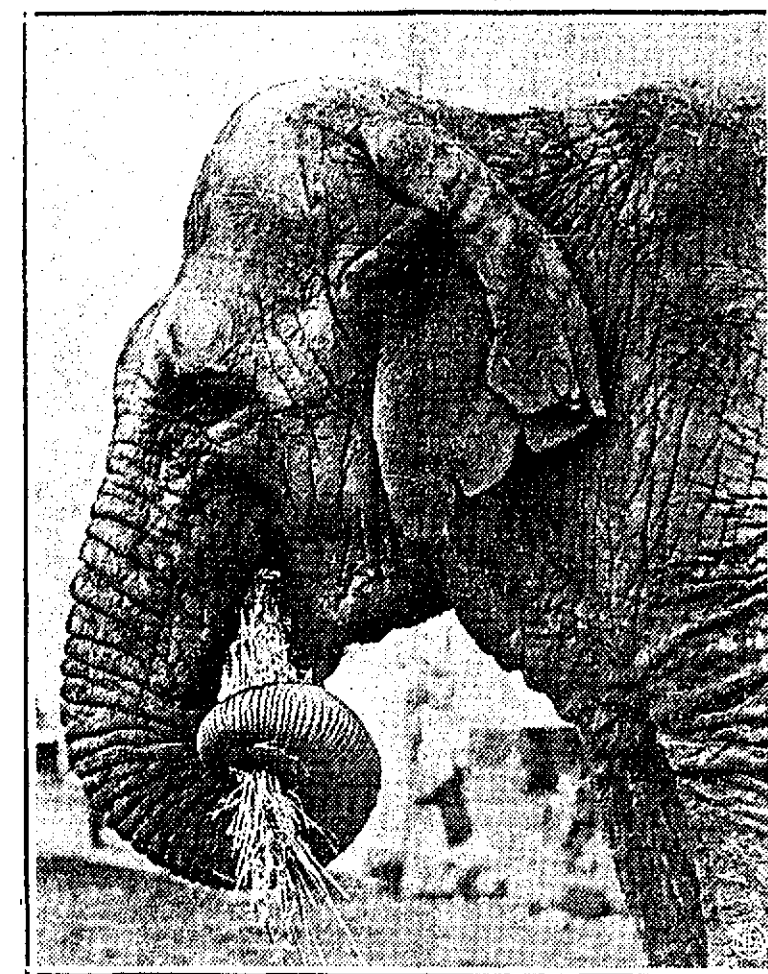

This, he said, is tantamount to saying that Britain "cannot look forward to anything but a repetition of the armament race which plunged the world into the greatest calamity into which it has ever been hurled."

He upbraided the government for its attitude at the time Japan entered Manchuria, asserting: "Since then the authority of the League has gone," he said.

## Peace Poster Drawn by Hendrix Brothers

An attractive poster advocating world peace has been drawn by Jack and Jimmy Hendrix, sons of Mr. and Mrs. R. L. Hendrix of Hope. It is on display at The Star office. Nations represented on the poster are: United States, Mexico, Holland, Japan and China. The poster was drawn by the Hendrix brothers and used in a peace program held at First Methodist church. The drawing is considered very good.

## Wrinkles? Nothing Else But

If every new wrinkle bothers you, think of Princess Alice, widow of the famous Jumbo, who gave up looking for new ones when it became too much like looking for a needle in a haystack; besides, she'd rather have the haystack. Her wrinkles are the accumulation of 145 years, most of which have been spent traveling with circuses. Now she's spending her old age in Australia.

## Street Districts to Collect Penalty

Supreme Court Also Affirms Judgment Against Bruner-Ivory Handle Co.

LITTLE ROCK (AP)—The Arkansas Supreme Court held Monday that street improvement districts have authority to collect penalty on delinquent district taxes under Act 112 of 1932.

The high tribunal refused a rehearing for Loy Dowell, under life sentence for murder from Hot Spring county.

The court upheld a \$5,000 judgment given Eddie West, of Hope, against the Bruner-Ivory Handle Company in Hempstead county where West had obtained judgment for injuries received when he fell over a warped plank at the factory.

## Two-Cycle Motor for Planes, Autos

It "Hits" On Every Stroke Instead of On Every Other One

LOS ANGELES (AP)—William L. Waterhouse, pioneer aviation engineer, announced Sunday he has designed and built a successful two-cycle gasoline engine which may reduce the weight per horsepower of airplane motors.

Waterhouse's engine, he said, will deliver one working impulse per revolution per revolution as against one working impulse every other revolution in the four-cycle engine. Walter Brookings, one of Wilbur and Orville Wright's first pupils, praised the Waterhouse engine.

Waterhouse said his engine can be used in both airplanes and automobiles.

## Laval Sustained in Election Test

French Approve Premier's Policy of Compromising With Italy

PARIS, France.—(AP)—France's premier, Pierre Laval, scored a personal victory Sunday in cantonal elections which saw the country slightly drifting to the Left.

Laval won two seats in the senate in what was regarded as a virtual plebiscite on both his careful Italo-Ethiopian policy and his drastic moves to maintain economic stability at home.

These victories were in the Seine department, embracing Paris, and in the premier's home sector of Puy de Dôme. But in the results of the Seine voting, Laval and one other member of his ticket, faced eight victorious Leftists, including Marcel Cachin, first regular Communist ever to sit in the upper house of France.

The elections for a third of the sen-

## Bobcat "B" Team to Play Blevins

Game at 7:45 Here Tuesday—Hope—Nashville Contest Friday Night

Assistant Coach Jimmy Jones announced Monday that the Bobcat B team would play Blevins High School here Tuesday night. The game starts at 7:45.

Admission will be 10 and 25 cents. Season tickets will not be honored.

The Bobcats drilled Monday on plays designed to upset the strong Nashville High School Scrappers who come here Friday night. The impending battle promises to be the most colorful and hard-fought on the schedule.

The Hope team will be seeking revenge for a defeat last Thanksgiving at Nashville. According to dope the two teams are about evenly matched this season.

A real fight looms between the two lines. Fans will have their eyes on big Freeman Stone, 215-pound Hope tackle, and Hixon, giant 240-pound tackle on the Scrupper team. Stone probably turned in his best performance here last week. He charged through the line to block three punts and partly block two others.

Reese and Captain Holly, who turned in nice performances against Texarkana, are especially anxious to see action against Nashville. Their work will be watched.

Coach Hammons said Monday that he expected the high school stadium to be jammed. Gates at the stadium will open shortly after 6 o'clock.

Two hundred reserve seats will be available on either side of the field. A charge of 15 cents for the seats will be made in addition to the regular admission price.

## Near 2 Millions Damage in 'Quake

Winter Closing Down on Earthquake-Stricken Montana City

HELENA, Mont. (AP)—Snow and increasing cold harassed this quake-ridden city Sunday as falling temperatures, which have killed two persons and injured scores, continued for the eighth successive day. It was feared there might be widespread suffering should temperatures continue to fall.

Heavy snow flakes that fell during the afternoon threatened descent to another group—those whose chimneys and heating plant were wrecked Friday night by the heaviest of the 218 earth shocks recorded since Oct. 12.

Property damage was estimated from \$1,500,000 to \$2,500,000. Hundreds passed the night in their motor cars fearing the remains in their homes.

An exodus of residents began late Saturday to ranches, resorts and comparative safety of valley and mountain roads.

Main street, one of Montana's brightest Saturday night spots, was dark for the first time in years.

The Chicago Field Museum exhibits a fossil elephant tooth weighing seven

## Lake Charles Port Opened by Guards in Dockmen Strike

75 Armed Men Invade Waterfront With Machine Guns and Rifles

### WATERFRONT QUIET

10-Day Blockade of Louisiana Shipping District Believed Ended

LAKE CHARLES, La.—(AP)—Seventy-five grim-faced guards armed with shiny machine guns, rifles and other firearms, Monday marched onto the Lake Charles waterfront and opened the port to shipping which had been blocked for 10 days by the dock strike of the International Longshoremen's association.

There was no disturbance. The longshoremen's organization has called strikes along the Gulf coast seeking unionization of dock workers at New Orleans and Lake Charles.

## County Teachers to Meet Saturday

White Instructors Are to Convene at 10 a. m.—Negroes at 1 p. m.

A business meeting of Hempstead county school teachers has been called for 10 a. m. Saturday at the high school building in Hope. County Examiner E. E. Austin said Monday. All teachers are urged to be present. Negro teachers are asked to meet at 1 p. m. Saturday at Yerger High School.

## 3,500 See '36 Ford at Showing Here

Hope Auto Co. Has Largest Turnout Since Advent of Model "A" in 1928

Approximately 3,500 persons, the largest crowd to see the showing of any Ford here since the advent of the model A in 1928, Saturday viewed the new Fords at Hope Auto company.

Manager Tom McLarty was elated over the interest shown in the floor demonstration. More than 1,000 persons had visited the show-rooms at 2 p. m. Monday to see the 1936 car.

The first 1936 sedan was sold to the City of Hope. Manager McLarty said delivery would probably be made this week.

A Ford coupe was the only 1936 model left on display Monday.

## Famed Cartoonist One of 109 Dead

Creator of "Andy Gump" Among Week-End Automobile Victims

By the Associated Press  
At least 109 persons, including Sidney Smith, cartoon creator of "The Gumps," died in week-end auto accidents as motorists jammed highways in pleasant autumn weather.

Near Fulton, Mo., two autos collided upon a bridge spanning a creek. One glanced off and hit a third car. Shortly afterward a truck ploughed through the wreckage. Two were killed, eight hurt.

A truck driver's riding mechanism died in a pleasure car at Indianapolis.

Near Fredericksburg, Va., two sailers were killed when their car missed a curve at night.

Sidney Smith, 58, was killed Sunday when his automobile collided with another car on U. S. Highway 14 near Harvard, Ill.

Smith, en route from Chicago to his summer home at Lake Geneva, Wis., was dead when removed from the wreckage of the automobile in which he was riding alone, state Patrolman Omar Olson said.

Smith's lawyer, Edwyn Williams, disclosed that a few hours before the fatal journey the cartoonist had renewed his contract with the Chicago Tribune-New York News Syndicate. He said it stipulated the payment of \$750,000 for a five-year period.

The cartoonist's wife, Mrs. Kathryn Smith, was notified of her husband's death at their Chicago home.

In ordinary combustion of coal, we waste 99.9999999999 per cent of its energy. If we could burn coal completely, so that there was no wasted energy, a lump the size of a pea would take a large steamship across the Atlantic and back.

## Bulletins

PEORIA, Ill.—(AP)—The amended Federal-Lanka farm debt relief law was held unconstitutional Monday by Judge Charles P. Bringle and J. Earl Major of the United States district court.

## Ruth Nichols and Crew Crash, Hurt

Premier Air Woman Injured in Accident to 20-Passenger Plane

TROY, N. Y.—(AP)—Ruth Nichols, one of America's ace air women, and five of her employees were injured seriously Monday when her plane crashed at the Troy airport.

With Miss Nichols were Captain Harry Hublitz, her pilot, two mechanics and two passengers. A few minutes after they escaped the big 20-passenger Condon plane burst into flames and was destroyed.

Miss Nichols and the crew had been making exhibition flights over Troy; giving 10 per cent of the proceeds to charity.

## Traxler Gets Out of Prison Again

Escapes in Oklahoma Following Sensational Capture at Nashville

PAULS VALLEY, Okla.—(AP)—Pete Traxler, 26, already under charges of jail breaking and questioned in connection with the slaying of two southern Oklahoma officers, escaped Sunday night from the county jail here for the second time within a month.

Returned October 9 from Nashville, Ark., where he was captured, after being slightly wounded in a gunfight with officials, Traxler picked a cell-door lock in the jail quarters atop the courthouse, dropped with blankets to a lower-floor ledge and then made his way to the street down a stairway.

Police Ernest Evans, who captured Traxler's companion in the previous break, said jail trustees restrained other prisoners from attempting to follow Traxler.

Following his return here from Arkansas, Traxler was charged, according to Evans, with jailbreak and robbery with a dangerous weapon. He has been questioned in connection with the slaying of Policemen George Doper of Pauls Valley, who was slain after being kidnapped by three desperadoes May 26, and the slaying of a Chickasha officer.

## Province Held by Mexican Rebels

Sonora Citizens Successful in Opposing New Governor, Ramos

TUCSON, Ari.—(AP)—The Arizona Daily Star said Sunday new mayors and "citizens committees" were ruling many cities of northern Sonora as the result of the recent uprising and that Gov. Ramon Ramos, whom the rebels had opposed, was politically doomed.

A staff correspondent of the Star at Magdalena, Sonora, one of the centers of recent revolutionary activity, reported the active phase of the revolt had ended; that business was continuing as usual and that the command of the northern military district had been changed against Ramos' wishes.

There were 400 federal troops in Magdalena, the correspondent reported, but added they had made no move to disturb the newly appointed mayors who replaced officials slain or otherwise removed from office by the rebel raiders.

Ramos was inaugurated governor several weeks ago in a tense atmosphere at Hermosillo, the state capital. Troops patrolled the streets against the possibility of demonstrations against him.

The insurgents started their drive two weeks ago, voicing dissatisfaction with the government's agrarian and alleged anti-religious policies.

Ramos went to Mexico City a few days ago to seek federal assistance against the rebels.

## Julia Lemley Given Hendrix Student Post

CCNWAY, Ark.—Julia Lemley, Hope sophomore at Hendrix college, was recently selected to occupy one of the five positions on the controlling board of a newly formed religious group. The organization is a consolidation of the Hendrix Y. M. C. A., the Y. W. C. A., and the Oxford Club. Members of the three former groups accepted the consolidation plan several weeks ago and voted that a governing body of five members would be more effective in an organization of this kind, than the usual body officers, consisting of a president, a vice-president, and a secretary-treasurer.

## Mussolini's Bid Given France, Who Watches England

Laval Withholds Terms Until British Parliament Begins Debate

### IS STILL UNCERTAIN

Meanwhile, Selassie Dispatches Ethiopian Crack Troops to Front

PARIS, France.—(AP)—Premier Pierre Laval was reported in unofficial circles Monday to have received suggestions from Premier Mussolini for a settlement of the Italo-Ethiopian war. The premier was said by these sources to be awaiting the debate in the British parliament this week before submitting the suggestions to London.

**Italy Reports Losses**  
ROME, Italy.—(AP)—Fourteen native Italian soldiers were killed Monday in the assault upon Dagneret, it was officially reported.

**New Peace Plan**  
LONDON, Eng.—(AP)—Authoritative quarters dropped hints Monday that a new plan for peace in the Italo-Ethiopian conflict has been crystallized at Rome, Paris and London as the result of easing tension in these capitals over the week-end.

These quarters emphasized, however, that the move was in its earliest stage and it would be erroneous to say anything definite had yet developed or that any great optimism prevailed.

Informed circles said it was not impossible that some concrete gesture for relieving the military measures in the Mediterranean, might be taken shortly, to be followed by definite peace talks.

**Selassie Addresses Troops**  
ADDIS ABABA, Ethiopia.—(AP)—Emperor Haile Selassie, fearful and in a voice choked with emotion, Monday bade farewell to 8,000 of his crack imperial guard who departed for Dessye about half-way between the capital and Makale, next objective of the Italian drive from the north.

**Rumor of Peace**  
AZMARA, Eritrea (Italian)—(AP)—The Italian army received reports Monday that Emperor Haile Selassie is ready to sue for peace.

Authorities said, however, that there was no official confirmation of the report and that military plans would proceed unaltered.

The present plans, authorities said, call for a drive by the Italian Somaliland forces up from the south against Gorrabei, in Ogaden province.

**Boycott of Italy Voted**  
GENEVA, Switzerland.—(AP)—The League of Nations Saturday night declared a boycott upon all Italian goods.

This sanction, by far the most drastic ever adopted by the League, is expected by its authors to cut off 70 per cent of the Fascist nation's exports—if rigidly enforced. It will affect directly most and indirectly all the workers of Italy.

In approving this step, the League's General Committee of 52 nations fixed October 31 as the date the sanctions will become effective. Premier Benito Mussolini has until then to think things over.

The attitude, or measures of co-operation the League may expect in the move, will be sought from the United States and other non-League members. Only Hungary and Austria, as on previous occasions, opposed the sanction. Delegates of both these nations, neighbors of Italy, said the economic boycott would be a crushing blow to them.

Anthony Edley, of Great Britain, credited with steering the sanctions measures through, prepared to leave Geneva for London.

**Three Classes of Sanctions**  
Three classes of sanctions have been adopted. The first was an arms embargo upon Italy and the lifting of one against Ethiopia; the second was financial sanctions, denying Italy cash and credits abroad; and the third was "voluntary" nations' "buy nothing from Italy" sanction.

The boycott prohibits importation of "all goods consigned from and grown, produced or manufactured in Italy or in Italian possessions from whatever place they arrive."

**Copyright Associated Press**  
FIELD HEADQUARTERS, the Italian Army in Northern Ethiopia, Saturday, Oct. 19 (Delayed)—Slight advances along the left and right sectors strengthened the Italian armies' front line today, laying the groundwork for a new major attack expected possibly within 48 hours. The Italian line on the northern front now resembles a square wedge, jutting from the middle of the former Eritrean border.

Except for the activity of the flanks, military operations at the front were at a standstill. Aerial reconnaissance, however, continued along the entire

## YOUR HEALTH

By DR. MORRIS FISHER

Editor, Journal of the American Medical Association, and of Hygiene, the Health Magazine

Too Many Gettin'-Killing Cells Endanger Body

Generally, the presence of white blood cells in your veins is assurance against infection and disease. For these cells fight the germs that invade your body.

But there is a condition in which there are too many white blood cells, and that in itself is extremely dangerous. That condition is called leukemia.

The white blood cells are manufactured in the marrow of the bones and in the lymphatic tissue, like the spleen, the tonsils, the appendix, and similar organs. Those cells that are made in the bone marrow differ from the ones made in other places.

Cells that are made in the bones have the job of fighting infection. Whenever germs invade the body, these white blood cells accumulate. They are found in large numbers in the pus or in the matter that comes out of infected wounds or boils.

We are not quite sure about the functions of the white blood cells that are formed elsewhere in the body. Probably they are concerned with the way in which the body resists poisons of various kinds.

There are a number of diseases in which the white cells are involved. Sometimes they do not grow properly, so that immature cells are produced. In such cases the lymph gland and spleen begin to enlarge, and so many immature white cells appear in the blood that they crowd the red blood cells out of the bone marrow. The patient gets weak and sick and anemia develops.

The result is the disease called leukemia, which means white blood cells. When the blood of a person with leukemia is allowed to settle, so many white cells are present that a thick whitish layer forms over the heavier red blood cells.

Ordinarily there are only 6000 or 7000 white blood cells in each cubic millimeter of blood. In leukemia the number may rise to several hundred thousand or even one-half million.

As this condition develops, there is abnormal perspiration, nervousness, and loss of weight. The anemia brings about weakness, a pale color, difficulty in breathing, and increased bleeding, because the blood will not coagulate or clot.

Any operation on such a patient, even as simple as pulling a tooth, may result in a serious hemorrhage.

Leukemia is a most serious condition. In the severe acute cases, patients seldom live longer than two or three years.

Life sometimes may be prolonged by applying the X-ray to the bone and to the spleen, but even with the best of treatment the outlook for life is not promising.

## A BOOK A DAY

By BRUCE CATTION

Briton and German Puzzle Each Other

In "Blood Relations," Philip Gibbs examines the contrast between Briton and German and emerges, apparently, with the conclusion that it is almost impossible for the two nations to understand each other.

His book is a novel about a young German aristocrat who goes to Oxford shortly before the World War, marries an English girl, and takes her back to Germany just as the war is getting under way.

The gal has to stay there all through the war, while her husband serves in the German army and her brothers fight for England; and afterward, torn by two loyalties, she watches Germany struggle to re-establish itself in peace, fail, and turn at last to Hitler.

The barrier of mutual misunderstanding is exemplified in the relations between the husband and the wife.

The young German cannot begin to understand the English—and, considering the way in which Mr. Gibbs describes the young bloods at Oxford, I don't blame him greatly.

His wife, likewise, is befuddled by the German. At the end she is utterly unable to see how a cultured and intelligent nation, driven to distraction by its troubles, could turn to a Hitler for salvation.

As a discussion of the war, its post-

## Vick Begins Huge Advertising Drive

Depression Years Give It Maximum Display, Says Chemical Co. Head

GREENSBORO, N. C.—"We are using newspapers again this year, as for many years past, as the chief means of carrying our story of better control of colds into homes throughout the world."

This statement was made here Monday by Lunsford Richardson, president of Vick Chemical company (and other specialists) for home control of colds. Mr. Richardson spoke immediately after signing orders for his company's fall and winter advertising.

"We have always placed newspapers at the top of our list," continued Mr. Richardson, "because each paper represents an established institution in its community, and a newspaper talks to desk and carries another in her hand."

When her nose gets shiny and lipstick looks faded, she uses the liquid to remove stale cosmetics. Then she starts at the beginning and, when finished, her face is dewy and fresh. She remembers, also, that simple little beauty routines, practiced daily, are more beneficial in the long run than pretentious ones, done only now and then.

For instance, five minutes of nightly brushing will be infinitely more valuable to the health of your hair than one long brushing and a twenty minute scalp massage only once a month.

A chin that is slapped several times each night and rinsed with ice water will stay firm and young longer than one which never is touched except on occasional visits to the beauty shop.

Cuticle which is oiled or creamed three nights a week will be softer and have fewer rough edges than cuticle that is neglected by oil except at the professional manicure table.

An all purpose cream saves time as well as strain on the budget. Get one that cleans and softens your complexion and use it night and morning. If your pores are a trifle large, perhaps an all-purpose cream that acts as a pore tightener will be just the thing.

First came the affair of two cedar boxes I had selected and paid for. When they arrived they were only one. No use filling up this space with the contortions I had to go through to get that other box, the telephone calls, three explanations to drivers who came out to check, at least four to the office and so on. I reached the stage when I decided to have mimeograph copies made to hand out to curious investigators. But I got the box. The clerk had made out the slip wrong. It took eleven days and much gasoline and wire charge to fix up that "one" into a "two."

A day or so after I bought those boxes I found that I needed more blank checks than remained in my book. So I called up.

Forgotten Assurances  
"Sure, Mrs. Barton," said the young teller, "I'll see that it goes into the afternoon mail and you will have it in the morning."

"Put a special on it," says I. "That won't be necessary," says he. No check book in the morning mail and I had used the last. I had to have another blank book before noon. It was pouring cats and dogs. I put on my raincoat and goloshes and stood 20 minutes waiting for a car. A three-mile trip and I was in the bank.

I did not say a word to the forgetter. He gave me one look, reached behind him, took the book with the memo off a shelf and handed it over. While I was away from the house a friend on a cross country trip had called but could not stay and I missed her.

One can stand such things if they do not pile up in a heap. However, I was not to be let off with two. The drug store sent down an order and led out the medicine most needed. That was on the same day as the bank affair. At eleven that night I went and got it myself. The next day the same store sent a package not intended for me. Said the clerk, "I think Dr. So and So telephoned for it."

Said I, "Don't you know?" Said he, "I think I have his name right."

Said I, "You'd better make sure and find out where it is to go. A life may depend on it."

And More to Come  
Oh, no, I am not through. This space won't hold all the annoyances I experienced in those few days. One I shall mention. I gave a boy a dollar to bring me some empty cartons to pack books away. They did not come. That Saturday night I met him on the street.

"I couldn't find any," he said. "No one has any to spare."

I moved aside. "Look," I said. There behind me in an alleyway were piled the boxes I had salvaged from the cellar of a busy store. I was waiting for a car to take me and them home. The store was next door to where he worked.

What is wrong? Are young people all wool-gatherers? Where are their minds? There is only one correct way to do things. Why don't they learn concentration and accuracy?

Of course there are millions who are right on the job, careful and expeditious workers, but there are the others, too. Is civilization and its excitements deteriorating the race? Some days I am certain that this is the case.

## Greenberg Voted Best in American

Baseball Writers Declare Detroit's First Sacker "Most Valuable"

PHILADELPHIA, Pa.—(AP)—"Hank Greenberg, the Bronx boy who went west to become the slugging star of the world champion Detroit Tigers, Sunday was designated the most valuable American League player of 1935."

Despite the injury which kept him out of the most of the World Series games, Greenberg was the unanimous choice of the eight representatives of the Baseball Writers Association of America who participated in the selection. The poll was announced by James C. Isaminger, chairman of the committee.

Voting on the basis of 10 points for the first-choice man of the list of 10 candidates selected by each writer, nine for the second, and thus down to one for the tenth, Greenberg polled the maximum total of 80 points.

Pitcher Wes Ferrell, Boston Red Sox, who won 25 games during the past season, received second honors with 62 points. Joe Vossnik, Cleveland outfielder was third with 39 points and Buddy Myer, Washington second baseman, fourth with 35.

As an illustration of this, Mr. Richardson pointed out that Vicks Vaporub introduced the modern external method of treating colds.

Vicks Vaporub introduced the new idea for preventing many colds. "Being direct local applications," he added, "these and other Vicks aids to better control of colds are always safe for home use. Their effectiveness is best proved by their widespread and ever increasing use. . . . over 53 million packages of Vicks home aids to better control of colds are now used yearly."

## Consolation

My heart was meant for breaking,  
So what's another pain?  
For one who finds a lasting song  
In slanting silver rain?

Who runs to meet the morning  
And reaches for the moon;  
Who loves a rose like living—  
Or death, should it be soon.

My heart was meant for breaking,  
So what's another pain?  
Just one more call for courage,  
Challenge to smile again.

Oh, I shall find the courage,  
And I shall own the smile;  
Who then can know that heartache  
Has measured every mile?

—Selected.

The Adult Department of the First Baptist Sunday school will hold a clinic at 7 o'clock, Tuesday night in the educational building, and each officer and teacher in the Department is strongly urged to be present, as business of importance to the department will come before the clinic.

## Xmas Seal Sale Is Headed by Newton

### Association Has Made Tuberculosis Tests Available for Thousands

Clarence F. Newton of Little Rock has accepted the chairmanship for the annual Tuberculosis Christmas Seal Sale according to the announcement from the office of the Arkansas Tuberculosis Association.

L. E. Becker has returned from several weeks visit with relatives and friends in St. Louis, Mo., and Highland, Ill.

Miss Marilyn Ward a junior at Hendrix College has been chosen as one of the maids at the homecoming, Friday, October 25. Miss Ward was also a maid last year for the homecoming.

The Hope Garden club held its October meeting on Friday afternoon at the home of Mrs. E. S. Greening on East Second street. In keeping with the occasion, the Greening home was a house of lovely flowers, certainly an inspiration to the group of flower-loving women, whose aim is to beautify our homes and highways, some luxuries are beyond our grasp—and it is better, perhaps, that they should be. But the luxury of owning a garden is beyond the grasp of no one... and gardens are as old as the history of man. The meeting was called to order by the vice president, Mrs. Aline Johnson, the regular routine of business was dispatched, after which Mrs. Sevea Gibson discussed winter bouquets and plants suitable for indoor planting. The Garden club is always happy to have Mrs. Mary Lemly with them, for with her rich experience in growing flowers, a visit from her always means something very interesting, and at this time, she told of the beginning of flowers, showing that all flowers had evolved from the tiny buttercup. Following a very interesting discussion, the meeting adjourned to meet the third Friday in November at the home of Mrs. M. M. Smyth on South Main street, with Mrs. A. F. Hanagan as leader.

Mr. and Mrs. J. B. Yates of Winchester, Ky., arrived Saturday and are now domiciled in the Mrs. Henry Stuart cottage on West Avenue C.

Mrs. C. S. Lowthorp, Mrs. R. T. White and Mrs. Geo. Sprague left Monday morning for Prairie Grove, Ark., where they will attend the annual meeting of the Arkansas Division of the Daughters of the Confederacy. Mrs. Lowthorp as Division president will preside over the convention.

Mrs. A. D. Brown of Texarkana was the Friday guest of Mr. and Mrs. J. Frank Gorin.

Friends of Mrs. J. M. Wright will regret to learn that she had the misfortune to fracture her hip in a fall at her home on North Elm street on Thursday afternoon, and is undergoing treatment at the Josephine hospital.

## Mussolini's Bid

(Continued from page one)

515-mile line extending from the Sudanese border to the vicinity of Harar.

Quiet also prevailed along the Somali frontier, where rains were holding up the Italian advance.

Only a slight forward movement along the frontier of British Somaliland has taken place in the last few days.

(The following dispatch was filed Friday.)

Field Headquarters, the Italian Armies in Northern Ethiopia, Oct. 18 (Friday) (Delayed).—A major concentration of Ethiopian warriors at Makale in a desperate effort to thrust off the next great Italian attack was reported by reconnaissance planes today.

They said the forces of Ras Kassa, assembling at Makale, had been joined by a contingent of imperial troops rushed northward by Emperor Haile Selassie.

Italian headquarters also received reports enemy troops are marching daily from Addis Ababa to bolster the defense of Makale, which lies 60 miles southeast of Italian-occupied Adwa.

Officers were convinced Ras Kassa intends to join forces with Ras Seyoum, who was forced to retreat from Adwa to Tembien.

An avalanche of midget tanks, it was expected, will cut a path for the next major Italian attack in the north. Military strategists said they had discovered these deadly "scouters" inspired a superstitious terror in the Ethiopian soldiers.

The little tanks, built close to the ground, speed across the terrain at 45 miles an hour, their machine guns dropping a curtain of bullets across their mobile front.

Ethiopia Cool to France  
ADDIS ABABA.—(P)—Ethiopia preparing for a decisive battle with Italy's invaders, received Sunday through action of Pope Pius the use of a modern Italian hospital for her wounded.

The pope directed the Italian Catholic mission here to turn over to Dr. T. A. Lambie, director of the Ethiopian Red Cross, the magnificent new Italian hospital in Addis Ababa, completed only three months ago.

Equipped with X-rays, the latest surgical and scientific apparatus and electric elevators, it is the finest and largest modern hospital in the country.

Emperor Haile Selassie, however, was represented as pained at the reported refusal of the American government to allow the American Friends of Ethiopia Society to ship two airplanes to Ethiopia for use as

For All Kinds of  
**INSURANCE**  
See  
**Roy Anderson and Company**

who are positive and who are unable to pay.

"In one county alone," he said, "the relief worker reported 127 diagnosed cases of tuberculosis on her rolls. This speaks many child contacts and it is finding tuberculosis in children before it has invaded the lungs and while it is not communicable which is one of the greatest missions the Tuberculosis Association and the Christmas Seal Sale can fulfill. I consider it a distinct honor to be asked to aid the State Seal Sale a second time, and with the improved conditions we are very hopeful of raising a substantial budget for this much needed work."

## Laval Sustained

(Continued from page one)

ate represented only an indirect expression of popular feeling since the balloting was by members of departmental councils and by delegates to municipal councils, instead of the people.

Premier Laval, usually well-informed sources said Sunday night, is seeking a way to permit Premier Mussolini of Italy to keep the territory he has occupied in Ethiopia and to give him an economic monopoly over the rest of the country under League of Nations protection.

Laval is expected to bend his efforts toward this goal within the 10 days before the actual application of economic sanctions is voted at Geneva, these persons asserted.

Some officials foresaw great difficulties in negotiating such an arrangement with both Great Britain and Emperor Haile Selassie, and there was an unconfirmed report Laval has received a letter from Mussolini saying he does not consider the time yet ripe for mediation.

The letter was reported to have cited present British feeling and to have threatened the French premier for his "loyalty."

A suggestion for an Italian protectorate over the Tigre, now partly occupied by Italy, and the other Ethiopian lowlands as well as economic and administrative control over the remaining of the country was reported in some quarters to have emanated from Mussolini.

Growing indications of tension between France and Ethiopia were apparent here. Some observers said French friendliness toward Italy had contributed to it. This was overshadowed recently in Ethiopia by the action of French authorities in demanding that the Ethiopian government demarcate a neutral zone at Dire Dawa with distinctive warning posts visible from the sky, where French employees of a Franco-Ethiopian railroad and other French nationals might take refuge from Italian air raids.

Government officials regarded this not only as a contravention of Ethiopian sovereignty, but almost an invitation to Italy to bomb the rest of Dire Dawa outside the neutral zone.

Fear also was expressed that France, which for years has agitated for possession of territory bordering on the railroad, might attempt to retain the proposed neutral zone as a permanent French possession.

The emperor was unalterably opposed to this suggestion.

though Whistling Bob Smith, the old prize fight manager who trains the Brookmeade Stable, feels certain that he can have the erstwhile stretch burner in shape.

O'Hara would offer \$50,000 for his second Narragansett Special. The first, you will remember, was slated to bring out Equipoise, Vavalade, and Discovery, but none of the three completed, the event going to so mediocre a horse as Time Supply.

The mysteriously lame Omaha already is out of consideration for such a scramble. Cavalcade would have to be far more fit than he was the afternoon Head Play outwaged and outran him in his spring bow at Belmont Park, else he would have no chance against the now mighty Discovery, which so frequently saw his shining heels as a 3-year-old.

Racing Obstacles Flying Start in California

The winter grind already has begun for racegoers of the San Francisco Bay region at least—for Tanfuran once more has opened its gates. This historic old layout is playing to big crowds, and if this is any harbinger of future racing in the Golden State, Bay Meadows and especially Santa Anita in the south should have great seasons.

The \$100,000 Santa Anita Handicap on February 22 is the world's richest stake, and now that horsemen know that the winner's check will not bounce, the pick of the nation's animals will trek west.

Original, this department agreed with those who scouted the idea of such a rich purse. It would be better to divide the money into a number of stakes, it was argued.

But Santa Anita this season offers two \$100,000 events in the California Breeders' Champion Stakes and the San Juan Capistrano Stakes, one stake of a value of \$7500, and five with a value of \$5000 each. There are four with a value of \$2500 each. Horsemen with top horses can figure on coming home with something more than expenses, even though they are shut out in the \$100,000 Santa Anita.

Young Alfred Gwynne Vanderbilt is shipping Discovery, Identify, and Gallant Mac. The first two, at least, should grab plenty of money for the cerise and white diamonds.

Prop Up Cripples For Rich Santa Anita 'Cap

There won't be an Equipoise. Twenty Grand, or Mate at Santa Anita this trip, but these famous old cripples did not cut much ice last year except in publicity.

There will be notable cripples at Santa Anita just the same. Tommy Taylor is trying desperately to get Head Play in trim once more. Head Play found the hard Santa Anita track too much for him last winter, but

**Bargain! 15 pounds of WASHING 49¢**  
NEW DAILY WASH SERVICE  
**NELSON-HUCKINS LAUNDRY COMPANY**

was supreme in the mud. After a brilliant spring in New York, he broke down in his sound front leg, thus becoming a double cripple.

W. R. Cox, now ready to dispose of his entire Shoshone Stud, including Pompey, the Futurity winner and illustrious sire; Osculator; and all his brood mares, is reserving Ladysman, second in the Santa Anita of last February.

Cox still hopes to cop the large number on the Pacific slope, and with Ladysman gradually returning to sound racing form, he is loath to peddle him. He doesn't care to risk the chance of seeing a lucky buyer take home the \$100,000.

Florida is expecting fine seasons at hialeah and Tropical Park. Florida may have suffered from the more magnetic drawing power of Santa Anita last winter, but if it did the pain was not severe. California and Santa Anita in particular appealed to owners of horses which otherwise would have hibernated during the chilly months in the north.

Florida will land plenty of seasoned performers, including King Saxon. The king sprinter has been retired to the Kentucky stud of Pat Knebelcamp temporarily, but will come back to the Florida courses. Florida also will draw the better 2-year-olds owned by horsemen foolish enough to start them so young.

The doldrums which have hit New Orleans each winter since racing started in Florida and Texas promise to continue along the bayous of the Mississippi. Old New Orleans can't compete with heavy backers of New York and Hollywood, those sugar daddies who see that racing in Florida and California stays in the big time.

**Reasons for**  
The young constable was undergoing the viva voce part of his examination. "Now assume," said the examiner, "that you are accosted by a charming young lady late one evening, who tells you that a strange man has embraced and kissed her. What would you do?"  
The young constable did not hesitate long. "I should—er—endeavor to reconstruct the crime with the young lady's assistance," he replied—Lektir (Copenhagen).

## Why Be Old Before Your Time?

New Discovery Containing Proved Ingredients Has Brought Joy to Thousands

Those men who feel that they have passed the prime of life and who suffer from nerve weakness and lack of vigor will be interested in a new discovery, which is said to restore physical power quickly. This remarkable preparation combines certain ingredients in easy-to-take tablet form, that have been used by many physicians for years, to restore activity to weakened glands and to stimulate nerve centers. Thousands who felt that they could never again enjoy the pleasures of youth have found renewed hope. This simple home treatment preparation is known as "GLAND-NUX Compound Tablets" and is said to often produce results in from 48 to 72 hours.

If you are losing your vital force, why not give this wonderful new tablets a trial? Just write confidentially to the Walter Company, Box 341-A, Station D, St. Joseph, Missouri, and the treatment will be mailed to you in a plain sealed package. You may enclose \$2.00 or simply send your name, without money, and pay \$2.00 and postage on delivery. In either case, if you report within ten days that you are not satisfied, the Company will refund the purchase price immediately upon request. This offer is GUARANTEED by a reliable company, so nobody need hesitate to accept it.

The United States produces only per cent of the world's output of shipbuilding.

OCTOBER 21st to 27th

The public often takes for granted some of its most valuable institutions. Very few stop to realize their dependence on their pharmacist and the untold services he renders. However, should the druggists close for a week or so and immediately the full force of their importance would be brought to everyone's attention.

Patronize your druggist... he is your best friend.

**John P. Cox Drug Co.**  
Phone 84 We Give Eagle Stamps

...but, after all is said and done, it's the cigarette itself that counts  
...the question is, does it suit you?

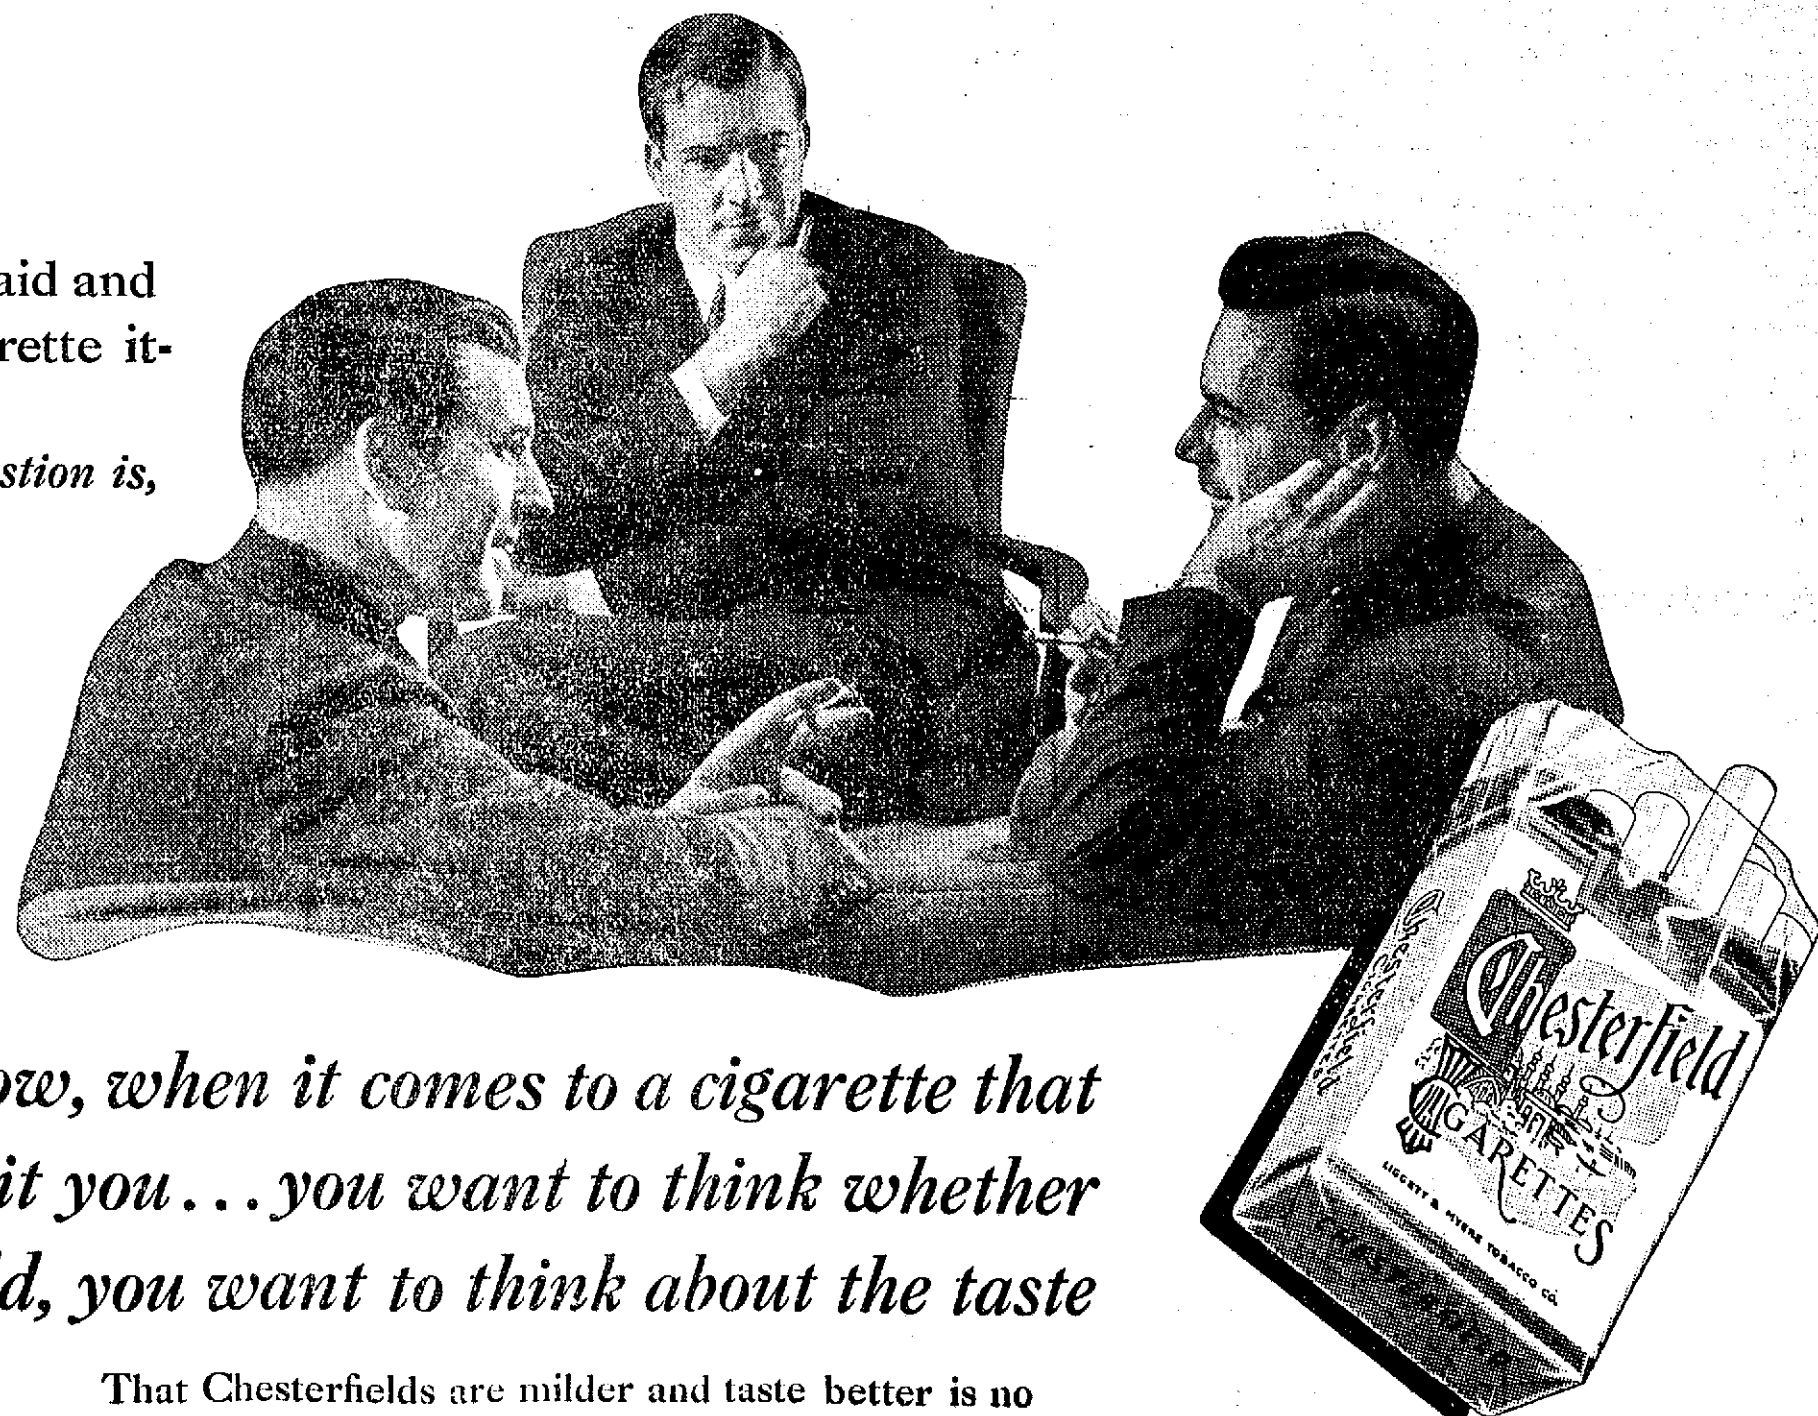

Now, when it comes to a cigarette that will suit you... you want to think whether it's mild, you want to think about the taste

That Chesterfields are milder and taste better is no accident...

The farmer who grows the tobacco, the warehouseman who sells it at auction to the highest bidder, every man who knows about leaf tobacco will tell you that it takes mild, ripe tobaccos to make a good cigarette.

In making Chesterfields we use mild ripe home-grown and Turkish tobaccos.

Outstanding  
.. for mildness  
.. for better taste

TOO TIRED TO HOP UPSTAIRS AND FETCH MY ZITHER—HMP—FIE ON YOU, M'LAD!—UM—YOU'RE TEN NOW, AREN'T YOU?—LEGAD, WHEN I WAS YOUR AGE, I DID THE WORK OF A HUSKY ADULT—MILKED THIRTY COWS, FED AND HARNESSSED TEN TEAMS—FELL AND SPLIT TREES FOR FIREWOOD—CLEARED ACREAGE OF BOULDERS AND STUMPS—WALKED NINE MILES TO SCHOOL WHISTLING GAILY THRU BLIZZARDS!—FAW!—THE LADS OF TODAY ARE A FUMIDDLE LOT OF NAMBY PAMBYS!  
FAP!  
HEY, HERCULES! TAKE A HITCH IN YOUR BELT AND GO UPSTAIRS AND TURN THE MATTRESSES IN THE FRONT BEDROOMS!  
AND YOU CAN GET THE ZITHER WHILE UP THERE

**OUT OUR WAY**  
By WILLIAMS  
WELL, IT'S TIME TO BLOCK IT UP FOR THE WINTER—WE'LL HAVE TO USE DOBBIN AND TH' BUGGY TILL WARM WEATHER AGAN.  
WHOOH!  
WHY, MISTER GOSWICK RUNS HIS WHEN IT'S LOSE COLDER IN THIS—I'VE SEEN HIM IN IT WHEN IT WAS SNOWIN', EVEN  
WHY, YES—THEY TOOK A TRIP TO THE COUNTRY CHRISTMAS LAST YEAR! WE'VE BEEN CHEATED ON THAT THING  
OH, BUT MR GOSWICK IS BIG AS PA, AN' TWICE AS STRONG—IT'S EASIER FOR HIM TO WIND 'EM UP  
BORN THIRTY YEARS TOO SOON

**BOOTS AND HER BUDDIES**  
Dear! Dear!  
GEE EEE! I WAS JUS' THINKIN' ABOUT THAT HEAVENLY MOVIE I SAW LAST PM.  
WHY IS IT THAT LIFE CAN'T BE LIKE THAT? WHY ARE ALL THE BE OOOOFTFUL THINGS IN MOVIES OR STORY BOOKS?  
OH, THOSE HEROES AND HEROINES HAVE THEIR UPS AND DOWNING TOO, I'LL BETCHA! YOU JUST SEE THE BIG MOMENTS. THAT'S ALL  
THEY TAKE THE WHOLE LIFE OF SOMEONE—OLD, 30 OR 100 YEARS OLD—AND TELL THE WHOLE STORY IN A MOVIE YOU CAN SEE IN TWO HOURS! FOR THAT MATTER THE HIGHLIGHTS IN YOUR OWN LIFE WOULD MAKE A PRETTY SNAPPY YARN  
OHH BUT IT'S LIKE SPAGHETTI—THERE'S TOO MUCH SAME—NESS TO IT—NO CLIMAX  
HEY! HOW'S ABOUT A HAM ON RYE?  
NOW, THERE—THAT'S TH' WAY IT GOES, WE WERE TALKIN' ABOUT ROMANCE—OH, WOTSA USE? THAT'S LIFE FOR YA! LOVE—AND A HAM SANDWICH!! BAH  
OK, BABY—MAKE IT A CREAM PUFF, OR SOME LADY FINGERS—BUT, MAKE IT SNAPPY

**ALLEY OOP**  
By JIMPIZZEZY, IF I AINT HADDA TIME! FALL INTO AN UNDERGROUND RIVER, WIND UP IN A SWAMP AN THEN GIT HAULED WAY OVER HERE BY A FLYING LIZARD!  
NOW ALL I GOTTA DO IS FIND MY WAY HOME—AN' WHEN I GET THERE I AINT NEVER GOIN' NOWHERE! YA CAN TAKE IT FROM ME, THIS TRAVELIN' STUFF IS THE BUNK  
HELLO THERE, ALLEY OOP—HOW WOULD YOU LIKE TO RIDE HOME?  
WELL FER—!! OOOO LA AN' OL' DINNY!! WHERE'D YOU COME FROM?

**WASH TUBBS**  
POOR MR. BIGGER! HE SAID HIS LIFE WAS IN DANGER, NOBODY BELIEVED HIM.  
FOLKS, I AM OF THE OPINION THAT MR. BIGGER IS STILL ALIVE.  
WHERE?  
WHY—AH—THE MAINLAND, OR SOMEWHERE, YOU SEE MY THEORY IS, THAT HE STOLE OUR TREASURE, BUILT A RAFT OF DRIFTWOOD, AND SAILED AWAY.  
THERE AIN'T ANY DRIFTWOOD, YOU SAP.  
WELL—AH—PERHAPS HE BUILT A RAFT OUT OF EMPTY BARRELS.  
HMM! THERE WAS 8 BAR'LS AND A KEROSENE DRUM.  
NO, SWOOSIE, YER THEORY'S SOPPIN'. THE BAR'LS IS ALL ACCOUNTED FER. THERE AIN'T EVEN AN EGG-CRATE MISSIN'.
